

7MF Series

A cross-reference guide for 7MF... series pressure transducers. Table 1 is a cross-reference for 4-20 mA pressure transducers. Table 2 is a cross-reference for 0-10 VDC pressure transducers. The 7MF...S series pressure transducers are a directly replacement of the two previous models, the 7MF-x21-xxx series and the 7MF1565... series. All three 7MF... pressure transducer models have a 1/4" NPT male process connection and a 1/2" NPT female electrical connection. The wiring of all three models is the same.
